

**Daniel-Alex Milencovici**

I am a doctoral student at the Doctoral School of Music and Theatre, West University of Timisoara. My doctoral thesis is a transdisciplinary one that combines music with psychology. At the same time, I am finishing my bachelor's degree in psychology at the Faculty of Sociology and Psychology, West University of Timisoara. The research for my final diploma degree work in psychology concerns the role of cognitive and non-cognitive factors in the academic success of students from different vocational profiles. I work at the Department of Educational Sciences, Faculty of Sociology and Psychology, Western University of Timisoara, as a research assistant and assistant at the Music education didactics.

I am interested in didactics and music teaching in primary, secondary, and high school, music psychology, particularly how music can improve students' cognitive processes, the training of teachers who teach music, the development of specific training programs, and the study of psychology in the musical field. I like to sing with the children.
